JUAL

REDUCTION PIPE WITH SOCKET

PRODUCT DESCRIPTION

JUAL Reduction pipe with socket

APPLICATION:

For reduction of diameter in stainless steel pipe system.

The sockets fit pipes with external diameters $\varnothing 50$, $\varnothing 63$, $\varnothing 75$, $\varnothing 90$, $\varnothing 110$, $\varnothing 125$, $\varnothing 145$ and $\varnothing 160$. The diameter of the pipe end is one standard size smaller than the pipe which fits in the socket.

The socket connection shall be accessible for inspection.

MATERIAL:

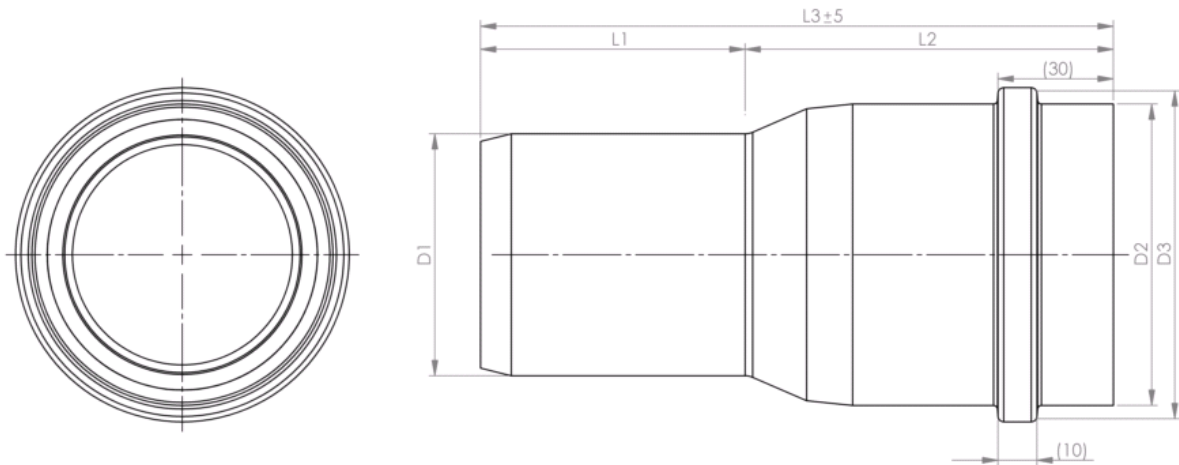

Stainless Steel AISI316 – EN 1.4401

Lip seal in EPDM rubber
